Technical Data Sheet:

AQUACRYL

WATER BASED GLAZE COAT

Description:

AQUACRYL is a water based sealer which protects and enhances porous surfaces such as slate, terra cotta, sandstone, etc. It gives a natural gloss without darkening the substrate.

AQUACRYL enables the substrate to breathe, making it suitable in applications where solvent based sealers are not suitable.

Advantages:

- Non-flammable, user friendly coating
 - Washes up in water
 - Does not markedly darken substrate or give “wet look” but maintains natural colour
 - Gives easily maintained finish
 - Protects the treated surface from staining
 - Allows substrate to breathe
 - Suitable for external use
 - Is easy to reseal without stripping
 - No primer or undercoat required
 - Prevents mould, moss and mildew
 - Added water proofing agent
-

Characteristics:

Colour:	Off White
Weight:	1
Solvent:	Water
DG Class:	Non DG
Coverage:	6 – 10 sq m per lt (depending on porosity)

Recommendations:

Slate
Terra cotta
Sandstone
Concrete and
Other porous substrates
